WORK EXPERIENCE

Senior Software Engineer
Capgemini Technology Services India Limited

04/2024 - Present   *Bangalore*

As a ReactJs Developer

- Developed a global-scale web application using React.js for one of the world's largest consumer goods clients, designed to serve millions of users worldwide.
- Leveraged React.js hooks, such as useState, useEffect, and custom hooks, to efficiently manage application logic and enhance code reusability.
- Enhanced API integration using Axios, reduced response times for smoother performance.
- Reduced bugs through effective state management with Redux and Context API, ensuring a more reliable user experience.
- Implemented React Router DOM to simplify and streamline navigation across the application.
- Achieved over eighty percent test coverage by writing modular code implementing unit test cases with ReactTestUtils/Jest.

Software Engineer
Capgemini Technology Services India Limited

09/2021 - 03/2024   *Bangalore*

As a ReactJs Developer

- Crafted responsive, interactive user interfaces using React.js, JavaScript, HTML5, and CSS for a seamless experience.
- Enhanced performance with React.js hooks, like useMemo and useCallback.
- Built responsive interfaces with Bootstrap and adopted Material UI for user-friendly designs.
- Refactored code for efficiency and optimized performance while implementing new features.
- Collaborated with senior developers to debug and resolve issues, boosting application reliability.
